The next golden key is working with the inner plane healing masters. These healers have been the other super key to the resurrection of my physical body. When calling forth this group of inner plane healers, invoke your Christ self and your monad along with the Inner Plane Healing Masters. I call them in, or feel myself in one of their healing chambers, any time that I'm not feeling well no matter what the symptoms or cause. When I needed them the most I would call them in many times a day. After you call them in, tell them what you want them to work on. Lie down and rest or meditate and let them work on you for up to an hour.

Following are some special requests that you can make of the Inner Plane Healing Masters:

Request a complete cleansing and repairing of all of your vehicles: spiritual, etheric, mental, emotional and physical. This includes asking them to repair any leaks or holes in your aura.

Request to be given shots on the etheric level of the substances you need such as vitamins, minerals, hormones, etc, under the guidance of the ascended masters. This is like giving these to yourself radionically or like the request for etheric acupuncture. It works because everything is energy.

I used to get a lot of healings from other practitioners until I realized that nearly everything I needed I could access on my own. This is the finest group of healers available to humanity. The Inner Plane Healing Masters and the Arcturians are an awesome one-two punch for staying in good
